Future Ready Youth

Yvonne Thomas
Director, Global Programs, Microsoft Philanthropies
Microsoft’s mission

Empower every person and every organization on the planet to achieve more.
We must move technology forward, without leaving anyone behind.
Our Digital Skills Aspiration:
Equip All Youth to be Future Ready
Worldwide, employers require digital skills, computer science education across industries, sectors and roles.
Our Theory of Change

Investment in Teacher/Trainer Capacity Building

Increased teacher/trainer ability to deliver high quality digital skills & computer science education to youth

More youth acquire skills, build confidence, see & pursue new paths available to them
How We’re Investing

1. Build the capacity of youth serving organizations to provide youth with high quality in-demand digital skills and computer science education with a priority focus on underserved communities.
2. Bring digital skills to every young person through long-term systemic change
3. Generate demand, build understanding, excitement and awareness
Partnership & collaboration
